

Changing Justifications on student profiles:

This option can be found by choosing “Edit” next to the test scores on the student’s main profile and then scrolling down on the resulting page (which says “Student Post Test” at top). If you choose to enter tests on the Student Post Test page without choosing this option, you will continue in the same battery/justification.

Remember, in order to change a justification, the student must have a post-test in each of the areas he or she was pre-tested in, in the original justification.
